

Financial Services for Every Link in Your Supply Chain

UPS Capital®, a UPS company, is focused primarily on providing financial services to businesses whose supply chains span international borders, such as U.S.-based businesses that manufacture or import goods overseas for sale in the U.S.

We can work with businesses that traditional financial service companies often ignore. Want to grow your business by expanding trade in global markets, or simply within your domestic market? Explore how UPS Capital can improve your cash flow, protect your goods and help speed the conversion of payments to cash. Be sure to contact us to discuss your specific business needs.

UPS Capital Cargo Finance® allows small to mid-size companies to borrow operating capital against goods moving through your supply chain within the UPS network.

- Access funds earlier in your supply chain
- Improve supplier relationships
- Reduce or eliminate the need for letters of credit
- Gain supply chain efficiencies

This article, by UPS Capital's Regional Sales Officer, Gary Carleton, and published by World Trade 100, illustrates the benefits of in-transit financing ...[Read more](#)
