

Export Financing to Keep Your Supply Chain Strong

UPS Capital®, a UPS company, is focused primarily on providing financial services to businesses whose supply chains span international borders, such as U.S.-based businesses that manufacture or import goods overseas for sale in the U.S.

UPS Capital Business Credit® sees the funding of worldwide trade and the supply chain as synonymous. As part of one of the world's largest transportation providers and foremost providers of supply chain services, we support our customers with trade finance and in-transit inventory lending solutions that complement traditional financial products.

UPS Capital Business Credit understands that as an exporter of goods internationally, your needs are unique. Therefore UPS Capital Business Credit offers solutions designed specifically for your business.

Export Credit Agency Financing

- Expand sales in growing emerging markets with reduced risk
- Extend payment terms to foreign buyers
- Offer buyers interest rates typically unavailable in their local markets
- Gain supply chain efficiencies (when complemented with UPS Supply Chain Services)
